

## **State Dept. FCU selects ICI for Image Exchange, Branch Capture & Remittance Implementation Assistance**

**McLean, VA, March 22, 2006** - ICI Consulting announced that State Department Federal Credit Union of Alexandria, VA has engaged ICI to assist with the Check Image Exchange, Branch Capture and Remittance Conversion Processes.

"When implementing image exchange, branch capture and remittance processing for the first time, there is a complex and lengthy list of things to do," said Randy McClintock, Senior Vice President for State Department FCU. "We retained ICI because we want to make sure that all of the action items are documented and completed well in advance of the live date. Over the past 10 years, ICI has successfully assisted our credit union with several vendor evaluations," added Randy McClintock.

"Financial Institutions rarely look forward to conversions," said Greg Schratwieser, ICI President and CEO. "A successful implementation only occurs through careful planning and insuring that all parties (credit union employees, consultants, hardware, software and image exchange vendors) are reading from the same play book. Our project plans are extremely thorough. We want to insure that there are no surprises during the implementation process and as we approach the live dates."

### **About ICI Consulting**

Since 1994, ICI has assisted financial institutions assess, cost justify, evaluate and implement core processing, check imaging (archive, image exchange, remote capture), lockbox, lending, branch and internet solutions. ICI remains objective by not having financial relationships with any hardware, software or outsourcing vendors.
