

Citizens National Bank engages ICI for Image Exchange and Archive Advice

McLean, VA, December 8, 2005 - Citizens National Bank headquartered in Elkins, WV has engaged ICI Consulting to evaluate Check Archive vendors and make Image Exchange Strategic Recommendations. ICI is a firm that provides financial institutions with core processing, check imaging and back office consulting services.

"ICI recently assisted us with our Core Vendor Evaluation. ICI saved us enormous dollars and negotiated dozens of additional terms and service levels agreements for our bank," said Brad Hammond, VP and Chief Information Officer for Citizens National Bank. "Image exchange seems to be changing the check processing industry every other week and no bank wants to spend money on throw away technology. We hired ICI for the check image archive project because they have worked with hundreds of banks in this area of the back office."

"Citizens National Bank will benefit from our other current 14 clients, who are in the process of cost justifying, selecting and implementing check image archive and image exchange solutions," said Greg Schratwieser, President and CEO of ICI. "Our consultants will help insure that Citizens National Bank selects the best check image archive, while making certain that it will integrate into an image exchange environment."

About ICI Consulting

Since 1994, ICI has assisted financial institutions assess, cost justify, evaluate and implement core processing, check imaging (archive, image exchange, remote capture), lockbox, lending, branch and internet solutions. For nearly 12 years, ICI has performed over 250 vendor evaluations. ICI remains objective by not having financial relationships with any hardware, software or outsourcing vendors.
